

We looked around the Mississippi Children's Museum and found a lot of things that begin with a W. Here are just a few of them.

You can look around your house or neighborhood and find things that begin with a W. Have a contest with your friends to see who can find the most W words!

Activity:

## Water Painting

If you've been in Outside the Lines at the Mississippi Children's Museum you've probably seen how you can paint with water at our "H2O Paint" exhibit. Here's a fun and easy way you can paint with water at home:

Fill a bucket with water and paint brushes and take it outside to a side walk or driveway (make sure to stay away from the road!). Use the wet paint brush to paint a picture on the ground. It will stay for a little while, but will fade as it dries so you can make a whole new masterpiece!
