

“Northwest Rankin you may open your present!” Paula Kemp shouted with joy. Boom Pow! We had already ripped up our present, which was the Mississippi Children’s Museum!

We were the first people to enter it. It was amazing; there were so many things to do there. I just couldn’t wait to get to do all of it! My three favorite things were: Spin Art, Wind and Air, and Digestive System.

With Spin Art you would like it because you could make these amazing paintings with an art spin wheel. Wind and Air was fun! You would like this also because it was a game you and a friend could play...it’s pretty addicting! Digestive System was awesome because, you could climb and run, but also you were learning because in each room there was a TV that explained stuff.

I hope I have persuaded you to go to the children’s museum and have fun like I did!
