

I like the Mississippi Children's Museum. We got to go and look at the digestive system and slide down. We got to go fishing, go to the art room and draw a picture or write our names. We got to eat Subway in the Museum. We got to get cookies. But then we went in a turtle tunnel.

We found building stuff. We tried to stay on the orange thing but we fell down. We went to the rocket elevator and it went down really quickly. Then we looked at big pictures. Then we had to leave the Mississippi Children's Museum. We all went home.

Ron
