

Last Thursday my class and I went to the Mississippi Children's Museum. We went and it was like the best field trip I've ever been on. I went in and I got in the Altima car and acted like I was driving. And at the Water Table, I was just spraying water. The Pine Tree Maze I didn't do anything but run around. The Rocket Elevator I went up and down it two times. Then in the Paint Room I painted. The toilet made funny sounds, and then I rode the bike at the Work Out Room. And that's what I did at the museum.
